- Full Stack Development (MERN Stack)
- Python with Data Science certificate

## SKILL

React.js

Tailwind css

Javascript

Redux.js

Responsive  
Design

# LAKSHMI NARASIMHAN

## React Developer

## ABOUT ME

- Having more than 1+ year of experience as a React.JS software trainer, experience in analyzing, designing, and developing various Realtime projects based on React.JS technologies.
- Take deep care about creating unique and reusable components to make a product very user-friendly that could reach the market easily, and that helps people feel good to use.
- Having a knowledge of sketches, creative animations, and Figma designs.
- Experience includes working on Information Management
  - Client co-ordination
  - Maintaining Multiple projects
  - Develop & Deploy the projects on-time
- Knowing the design principles, Fundamentals of React Architecture, easily understanding the project domain, ability to interpret functional and non-functional requirements to system requirements.
- Able to design a code and capable of logical thinking to solve the complex problems.

## EXPERIENCE

- Aachariya Infotech 2021, August -- present  
React JS Software Trainer

### Projects Handled

- Worked on a complex and realtime project the Cart Application and completed the cart application by myself for cart logic. And used the Redux tool for my state management, the complete UI for a design using Tailwindcss, and now I had the confidence to handle big projects easily.
- Apart from the cart application, My contribution to multiple projects sometimes is working fully on the functionalities part and sometimes working on the user interface.
